Comments:

- > This tour does not include photos in the tour price. As advertised, photos are an additional extra. The photos purchase are in websized resolution and will come with the guides watermark.
- > The pricelist does not indicate the number of photos the guide might take.
- > The guest needs to ask for photos to be taken.
- > The "size" of the photo refers literally to the size, not the file weight or the resolution.
- > The resolution remains 300dpi regardless if the resolution is in websized or the original resolution available for purchase after the tour.
- > The original resolution depends of the camera, the shape of the image and other factors. It varies image to image.
- > Photos typically are shared within 3 days of the tour finishing
- > Majority of the payment of photos goes to the guide, minus the software services fees, and taxes.

- > The pricelist does not indicate the number of photos the guide might take.
- > Expect a photo of your group on your booking, a landscape with scenery and a sky shot.
- > Any additional images are at the guides availability and descretion and basedon what is possible for them.
For example, some groups require less assistance from our guide, freeing the guide up to take more photographs, or some nights there is a long wait in the one location for gaps in the sky, making more opportunities for the guide to take photos.
